DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on Jun. 8, 2009 has been entered.

Response to Amendment

Applicant's Amendment filed on Jun. 8, 2009 has been entered. Claim 36 is cancelled per the Amendment filed.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 8-32 directed to Inventions and species non-elected without traverse. Accordingly, claims 8-32 have been cancelled. Therefore, claims 5, 6 and 37-40 remain pending in the current application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The title of the application has been amended as follows: Liquid crystal display apparatus and method of manufacturing the same comprising internal biaxial cholesteric retardation layer.

Further, the application has been amended as follows:

Claims 8-32 are cancelled.

Allowable Subject Matter

Claims 5, 6 and 37-40 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 5 and 6 (Amended): The closest prior art Jones (US 5953091) discloses in Figure 2 all of the limitations set forth in the claims. However, Jones either alone or in combination with other prior arts do not further teach or suggest that the single retardation layer having a cholesteric liquid crystal material, which is formed on the color filter layer having a substantially uniform thickness, further has a function of a biaxial film. Therefore, claims 5 and 6 are deemed non-obvious and inventive over the prior arts, thus are allowed.

As to claims 37-40: Since claims 37-40 depend directly on the allowed claims 5 and 6, hence, are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
